Thanks Darlene. Let's try to get confirmation on when Alex would like comms: is it at the proposal stage or is it after we've issued the decision?

After the General, I sent Mary Hanley the backgrounder to share with Alex. I haven't seen any feedback from Alex yet, but I can check with Mary.

I think this action was on the agenda for this week's OPP General. Before I review, let's see what guidance we received from Alex.

Rick and Ed,

I concur on the attached Decision Document. We have a two week public comment period on this one – first residential use of a previously registered AI.

Bob

Subject: FW: Review Requested- Bacillus thuringiensis aizawai ABTS 1857 Proposed Decision Document
(New Uses) - PRIA Due Date: January 29, 2020

Bob and Anne,

I have provided comments/edits to Alex Boukedes on the attached proposed decision document, and she has responded with a draft that I concur on and believe is ready for your review and comment (see attached PDF document).

Also, I am providing the science reviewer concurrences on the proposed decision document (see attached emails) and sharing the science documents associated with this action: https://usepa-my.sharepoint.com/:f:/g/personal/kausch_jeannine_epa_gov/EjfELmHjx-1IiYZM0b4PAFcBFIZKmwSvux4eZbz9bawCdG?e=i6dRzE.

Because one of the proposed uses is a first residential use for the active ingredient, the proposed decision document and the supporting science documents will need to be posted for a 15-day public comment period.

Thanks,
Jeannine
